Career Objective

To begin my professional journey as a Data Analyst, utilizing my analytical mindset and technical skills to contribute to meaningful data-driven decisions. I aim to grow progressively into a Data Engineer and ultimately a Data Scientist by continuously learning and applying advanced technologies in real-world scenarios.

Professional Summary

Computer Science student currently enrolled in the third year of BSCS (Software Engineering) at FUUAST. Actively pursuing an AI & Data Science course comprising three core modules: Python, Artificial Intelligence, and Data Science. Skilled in Excel, Python (Pandas, NumPy, Matplotlib), Power BI, and Tableau. Demonstrates a strong foundation in data visualization, problem-solving, and collaborative work environments. Motivated to grow within the data field and make impactful contributions to modern data-driven organizations.

Core Skills

- Data Cleaning & Wrangling
- Python Programming (Pandas, NumPy, Matplotlib)
- Microsoft Excel (Advanced Functions & Charts)
- Power BI & Tableau (Dashboards & Reports)
- Data Visualization & Storytelling
- Basic SQL (Learning)
- Understanding of Machine Learning Concepts
- Strong Analytical & Logical Thinking

[Actively learning and improving these tools through project-based and course-based learning]

Education

BSCS – Software Engineering

Federal Urdu University of Arts, Science & Technology (FUUAST)

Currently in 3rd year

M.A – Islamic Studies

Affiliated with University of Karachi (KU)

Currently Enrolled

Professional Course: Artificial Intelligence & Data Science

Includes Modules: Python, AI, and Data Science

Tools & Technologies

- Jupyter Notebook
- Visual Studio Code (VS Code)
- Google Colab / Anaconda
- Git & GitHub
- Microsoft PowerPoint & Word
- Windows & Linux Environments

Soft Skills

- Effective Communication
- Problem Solving
- Time Management
- Team Collaboration
- Critical Thinking
- Adaptability

Professional Experience

Assistant – Asian Continental Pharmaceutical Company

October 2023 – Present

- Assisted in preparation and handling of regulatory renewal documents.
- Operated copier and scanning equipment for documentation purposes.
- Organized and maintained files and paperwork in support of regulatory team.

Future Skills & Learning Roadmap

✓Currently Learning :

- Microsoft Excel (Pivot Tables, Formulas, Charts)
- Python Basics (Pandas, NumPy, Matplotlib)
- Power BI (Dashboards, Reports)
- Tableau (Visualization, Insights)
- SQL (Data Querying)
- Advanced Excel (Macros, VBA)
- Python for Data Analysis (Seaborn, Plotly)
- Exploratory Data Analysis (EDA)
- Statistics for Data Science

📌 Future Goals (For Data Engineer & Scientist Path):

- Data Engineering Tools (Airflow, Apache Spark, Hadoop)
- Databases (MySQL, PostgreSQL, MongoDB)
- Machine Learning (scikit-learn, TensorFlow)
- Deep Learning (Keras, PyTorch)
- Data Cleaning & Feature Engineering
- Big Data & Cloud Platforms (AWS, GCP, Azure)
- Model Deployment (Flask, Docker, Streamlit) • MLOps & Real-time Data Pipelines
